

TREATING  
**CELLULITE**  
THE NATURAL WAY

## WHAT IS CELLULITE?

Modern life has presented us with more than a few challenges hurting our health, skin and outside appearance - Mental stress, Air pollution, Saturated fat, Junk food, making all women thin or fat, big or small, old or young, unite under one common denominator that upset them all – **CELLULITE**.

Cellulite is caused when blood circulation and toxin drainage, in areas containing certain type of fat, are not working well causing the collagen tissue connecting the cell to twist and deform and enter the cells themselves. This overloads the cells push them against the upper skin layer the dermis, creating what we know as **CELLULITE**.

We, at Spider Pharm, believe that an intensive continuous treatment based on natural active ingredients, can significantly reduce this "orange like skin effect", or as we know it, cellulite, and restore skins natural elasticity and smooth look.

## THE TREATMENT WE OFFER

We have developed a 100% natural active ingredients based products for treating **CELLULITE** at the comfort of your own home.

The product range include a daily treatment cream based on Caffeine – **CELLU-TREAT COFFEE CREAM**, once a week deep massage treatment cream based on Cinnamon Oil – **CELLU-TREAT CINNAMON CREAM** and a cleansing skin prep soap – **CELLU-TREAT SOAP BAR**

The activate **CELLU-TREAT COFFEE CREAM** was created to fight cellulite and excess fat stored intensively. The cream contains caffeine, menthol, camphor, seaweed, Dead Sea Mineral and other active ingredients that increase blood supply and promote the breakdown of fats. When the **CELLU-TREAT COFFEE CREAM** in used regularly, it helps you to significantly decrease cellulite volume and makes your skin smooth and flexible. The cream is absorbed quickly, whilst leaving a delicate scent and a feeling of freshness and lightness.

The **CELLU-TREAT CINNAMON CREAM** offers a unique combination of ingredients that makes skin appear firmer and smoother by stimulating skin cells and promoting the removal of excess fluid, adding firmness, stimulating cells renewal and streamlining the skin's appearance so it'll look naturally toned.
